Denis Homich

DOB: 05.09.1992

Location: Minsk

Mobile phone: +375 29 611 98 70

E-mail: pismofs@gmail.com

Education:

2010-2015 Belarusian National Technical University, civil engineering, Industrial and Civil Engineering

Key skills and competences:

HTML, CSS (SCSS), JavaScript, Angular (2.x), Git, Gulp

Additional skills:

ReactJS, SQL, Apex, Visualforce, Lightning

Personal qualities:

Responsible, able to work in a team, accurate, an analytical mind-set, commitment to continuous learning and skill development.

Language skills: English – Intermediate.

Work experience:

From July 2015 to June 2018 - a structural engineer at the Institute of Housing - NIPTIS named after S.S. Ataev, I was responsible for the development of project documentation, the calculation of structural elements, passing of the state examination.

Since July 2018 - frontend developer.

I have no programming experience in real commercial projects. But at the moment I'm involved in the development of a large open source project. Also, the last 3 years of experience as a construction engineer is very useful, because it requires the same skills as the software developer.
